PREAMBLE

Today's world is in a rapid process of development and change in many fields including but not limited to social, cultural, political and technological ones. Universities are of great significance in terms of their role in the generation, development, use and transfer of high-quality and functional information in all these fields. Faculty of Science and Letters within the structure of universities is undoubtedly one of the most essential branches where this mission of generation, development, use and transfer of high-quality and functional information is undertaken. Faculties of science and letters, which include both social sciences and humanities within their structure, are vital due to their contribution to training and education, to generation of knowledge and science as well as to public relations in universities.

In Faculty of Science and Letters, Iğdir University, the most up-to-date researches are made in accordance with the social and technological requirements of modern science and technology, along with the provision of training and education. Faculty members have made a significant number of both national and international scientific researches and they have duly represented our university in various national and international scientific activities since the foundation of our faculty.

Faculty of Science and Letters, which is among the most prestigious faculties of Iğdir University, takes rapid, firm and decisive steps forward to the future with its administrative structure and efficient staff. Currently active departments in our faculty may be listed as; Department of History (including daytime and evening education), Department of Mathematics, Department of Turkish Language and Literature, Department of Geography, Department of Art History and Department of Western Languages and Literature. Student admission to Sociology, Psychology and Biochemistry departments is also planned to begin in 2020-2021 academic year. Our university and our faculty embraced the opportunity to develop and enhance more rapidly following its move to the new campus area. In addition, other inactive departments of our faculty, whose physical conditions have been improved, are envisioned to be active and provide education soon.

2019 Activity Report, which includes the mission, vision and strategical approach of our faculty, was prepared considering the academic and administrative mission, vision, aims and objectives of our branch in a way as to enable the efficient, cost-effective and productive attainment and use of resources and to make the accountability and transparency of this process possible in accordance with Public Financial Management and Control Law no. 5018.

I would like to express my gratitude to the personnel, who contributed to the preparation of this report, to our related divisions, and to all administrative and academic staff who work in collaboration to generate knowledge and enable its environmental efficiency in line with modern and universal values. I wish you all success.

Prof. Dr. İbrahim DEMİRTAŞ

Dean

I. GENERAL INFORMATION

A. MISSION AND VISION

MISSION

Our mission is to train highly qualified graduates and scholars, who are able to question, to make research, to produce knowledge at international scale, to follow closely the most up-to-date developments, who are open to innovations, willing to contribute to the development of society with their consciousness about national and cultural values; and who have grasped the importance principle of productive science and its operation.

VISION

Our vision is to become a faculty, which aims at a student-oriented education going after science at a universal scale, and to train graduates or scholars who have both national and international prestige due to the quality of their research and information output, who are candidates for international visibility; always in search of solutions for the social and fundamental problems of their province, region and country; able to work in collaboration successfully; to organize cultural and artistic activities focusing on internalizing scientific approach, and to make cultural and scientific contributions to our region and country

KEY PRINCIPLES

- Commitment to Ataturk's Principles Abiding by laws and regulations
- Believing the universality of science
- Innovativeness
- Standing firm in honesty and righteousness
- Attaching importance to unity, adaptation and solidarity within the institution
- Love and respect for everybody regardless of their religion, race, nationality and values
- Continuous striving for perfection
- Appreciating the time
- Making authentic and original researches
- Love for our job
-

B- AUTHORITY, ROLES AND RESPONSIBILITIES:

Our faculty was established as subordinate to Iğdir University, under Decree no. 1056 of the Council of Ministers dated 25.10.2010, which was published in Official Gazette No. 27758 on 13 November 2010. The administrative superior of our faculty is dean and his roles, and responsibilities are as follows:

Dean: He/she is the representative of the faculty. Dean assumes the chairmanship of the faculty board. He/she implements the decisions of the faculty board and ensures the systematic workflow among the faculty divisions. He/she informs the Office of Rector of faculty's financial and staff-related needs. He/she is responsible for the general supervision and control of the faculty divisions and staff. He/she is the "Spending Authority" in terms of financial budgeting.

He/she is accountable to rector for the rational use and development of educational capacity of the faculty, for taking security precautions when necessary, for providing the students with necessary social services, for convenient implementation of activities related to education and training, scientific research and publications, for supervision and control of, and tracking the results of all activities (Law no. 2547., Article 16-a)

C.1) Vice Dean: He/she is elected among the salaried faculty member to assist the Dean in his works. He/she substitutes for dean during his absence or leave. (Law no. 2547., Article 16-a)

C.2) Faculty Secretary: He/she is subordinate to dean and chief of faculty administrative organisation. He/she is responsible for administrative and internal services. He is the in terms of financial budget. He is the reporter of faculty board. (Law no. 2547., Article 51/b)

C.3) Head of Department: He/she is responsible for training-education and research activities of his/her department at every level and for efficient and effective conduct of each activity. (Law no. 2547., Article 21)

C.4) Faculty Board: The board includes the heads of departments in the faculty, and, if any, managers of institutes or colleges operating under the faculty as well as three professors, three associate professors, and a faculty member who are elected among faculty members for a three-year term of office. It assembles under the chairmanship of the dean.

C.5) Roles and Responsibilities: The board is responsible for taking decisions about activities concerning training and education, scientific research and publications and regulations on these activities, as well as for educational planning and schedule, coopting the members of faculty administrative council and conducting other duties given by laws and regulations.

C.6) Faculty Administrative Council: The dean assumes the chairmanship of the council and it includes three professors, two associate professors and an assistant professor who are elected by the dean for a three-year term of office.

Roles and Responsibilities: The council assists the dean in the implementation of the guidelines set by the faculty board and the implementation of educational planning, programs and schedule of the faculty. It also prepares the investment program and budgetary proposal of the faculty. It takes decisions on faculty administration, student admission, course adaptation and drop as well as training, education and exams. In addition, it conducts other duties given by laws and regulations.

C. INFORMATION ABOUT THE BRANCH

Faculty of Science and Letters in Iğdir University was established by the passed on 25/10/2010 by the Council of Ministers, upon the Document no. 18005 of the Ministry of National Education, dated 05/10/2010, in accordance with supplementary item 30 of Law no. 2809 dated 28/3/1983. The proposal of Iğdir University Rectorate to start programs and departments within the body of Faculty of Science and Letters discussed at the executive meeting of Higher Education Council dated 16.06.2011 and following departments and subdepartments was deemed convenient for providing education in accordance with the article 7/d-2 changed under Law no. 2880 of Law no. 2547:

1. Department of Western Languages and Literature

- English Language and Literature

2. Department of Biochemistry

- Biochemistry

3. Department of Geography

- Physical Geography
- Human and Economic geography
- Regional Geography
- Geography of Turkey

4. Department of Eastern Languages and Literature

- Arabic Language and Literature

5. Department of Mathematics

- Geometry
- Analysis and Theory of Functions
- Algebra and Theory of Numbers
- Topology
- Applied Mathematics

6. Department of Psychology

- Social Psychology
- Developmental Psychology
- Experimental Psychology
- Applied Psychology

7. Department of Art History

- General Art History
- Turkish and Islamic Art
- Byzantium Art

8. Department of Sociology

- General Sociology and Methodology
- General Sociology and Methodology
- Sociology of Institutions
- Social Structures and Social Change

9. Department of History

- History of Modern Ages
- Contemporary History
- History of The Republic of Turkey
- Medieval History
- Ancient History
- General Turkish History
- Ottoman Institutions and Civilization

10. Department of Turkish Language and Literature

- Old Turkish Language
- New Turkish Language
- New Turkish Literature
- Classical Turkish Literature
- Turkish Folk Literature
- Modern Turkish Dialects and Literature

7- ADMINISTRATION AND INTERNAL CONTROL SYSTEM

All correspondence and documents related to financial assessment are controlled to ensure the cost-effective and efficient conduct of the activities within the faculty in accordance with the regulations and the aims of the faculty, the protection of the assets and resources, and convenient documentation of financial records. The documents controlled are sealed with the statement “Controlled and Approved”.

II. AIMS AND OBJECTIVES:

Aim 1: As a faculty, “to become dynamic, innovative, entrepreneur and human-oriented”

Objective 1: Organisation of symposiums and conferences with different subdepartments

Objective 2: Access to national and international journals and books via internet

Objective 3: Hosting consultation meetings of subdepartments within the faculties of science and letters,

Aim 2: “to improve the physical and technological infrastructure of the faculty

Objective 1: to ensure that classrooms in the faculty have an infrastructure enabling students and lecturers to use modern IT Technologies,

Objective 2: to establish a Foreign Language Laboratory in case that there is a preparatory foreign language class,

Objective 3: to provide each class in the faculty with a computer, projector and scanner as regular assets,

Objective 4: to provide each class in the faculty with more comfortable, modern and ergonomic design in order to make them suitable for the age and physical conditions of students.

Aim 3: “to increase the quality of education so as to train qualified people”

Objective 1: to maintain the continuous development of training and education in graduate programs,

Objective 2: to ensure the continuous sharing of the course activities of lecturers with students via electronic media

Objective 3: to ensure annual update of course contents in accordance with recent conditions,

Objective 4: to ensure the improvement of training and education methods in accordance with recent developments,

Objective 5: to determine and eliminate the deficiencies and to support successful practices in training and education through interviews with students,

Objective 6: to enhance the interaction and communication between students and lecturers,

Objective 7: to ensure the continuous evaluation, improvement and development of training and education at certain intervals with the participation of shareholders.

Aim 4: “to support scientific research and publication”

Objective 1: to encourage the currently active lecturers to publish at least 1-2 papers in a peer-reviewed journal,

Objective 2: to support the lecturers in their participation in national and international projects,

Objective 3: to make necessary attempts to issue a Faculty Journal in accordance with the criteria set by The Council of Higher Education,

Aim 5: “to encourage foreign language learning at an appropriate level while remaining stick to the principle that “Turkish language should be improved as a scientific language”

Objective 1: to provide the lecturers with opportunities to study abroad in order to improve their foreign language,

Objective 2: to ensure that especially those lecturers who have a low-level foreign language skills could benefit from international lecturer or student exchange programs such as Erasmus and Farabi,

Aim 6: “to improve physical, technical and social conditions for academic personnel”.

Objective 1: to fulfil the physical needs of the offices used by lecturers, if any, such as worktables, chair and bookshelves,

Objective 2: to provide lecturers who do not have a personal computer with computer,

Objective 3: to divide the dining halls of students and lecturers and to improve their physical condition,

Objective 4: to encourage and support the lecturers in their participation in national and international projects

Aim 7: “to increase the productivity and satisfaction of employees”.

Objective 1: to create a positive institutional atmosphere which will increase the motivation and and commitment of both academic and administrative personnel

Objective 2: to enhance the relationship and dialogue between those who are working for the university

Objective 3: to improve the physical standards of the working space,

Objective 4: to attain a transparent administrative structure which is responsive to the problems of the personnel,

Objective 5: to increase the participation of internal shareholders in and their contribution to faculty management,

Objective 6: to conduct “assessment” activities aimed at determining the approach and thoughts of both academic and administrative personnel to the institution and to eliminate negative factors,

Aim 8: “to support students’ personal, social and academic improvement”

Objective 1: to create learning environments that will ensure students’ academic improvement,

Objective 2: to support students’ personal and social development,

Objective 3: to encourage and provide support for seminars and conferences in which students actively participate,

Objective 4: to facilitate new students’ adaptation to the faculty,

Objective 5: to support the new graduates during their evaluation and decision process about graduate study and job application,

Objective 6: to increase students’ participation in cultural, sports and art activities,

Objective 7: to establish student clubs within the framework of faculty’s mission and vision in line with students’ demands,

Objective 8: to provide students with active, practical information and guidance about efficient methods of study,

Aim 9: “to increase student quota”

Objective 1: to increase the quota, if possible,

Objective 2: to activate evening education in departments,

Objective 3: to activate new departments in line with the needs of the country,

Objective 4: to admit students from nearby Central Asian Turkic Republics to which we have historical connections,

Objective 5: to increase the number of lecturers and research assistants in parallel with the increase in the number of students,

Aim 10: “to improve public services”.

Objective 1: to encourage researches on public problems with high priority,

Objective 2: to organise panels, discussions and conferences to raise consciousness among the society.

Basic Policies and Priorities:

- a) To complete the construction of service buildings and the landscape and to provide the infrastructure necessary for this considering the significance of physical environment in attaining the aims and objectives of the faculty,
- b) To fulfil the need for both academic and administrative personnel,
- c) To have a more efficient education technology which is good at library services and supported by visual materials and equipment,
- d) To initiate PhD programs,
- e) To complete the infrastructure that will enable students to benefit from medico-social services to the most (such as boarding, catering, recovery and sports),
- f) To appeal to a wider audience with social and cultural activities such as national and international conferences, symposiums and seminars.

III. INFORMATION ABOUT ACTIVITIES AND EVALUATION

Financial Information: Information about 2018 Financial Year budgetary expenses is presented in the table below.

Budgetary Expenses

	2019 BUDGET APPROPRIATIONS	2019 ACCRUAL TOTAL	2018 ACCRUAL RATE
	TL	TL	%
Budgetary Expenses Total	7.826.127,05	7.819.115,53	272,00
01-PERSONNEL EXPENSES	7.085.015,10	7.085.014,48	99,00
02- STATE CONTRIBUTION (PREMIUM) TO SOCIAL SECURITY INSTITUTIONS	715.072,55	715.072,55	100,00
03 – ASSETS AND SERVICE PURCHASE EXPENSES	26039,40	19.028,50	73,00
05-CURRENT TRANSFERS	-	-	-
06- CAPITAL EXPENSES	-	-	-

IV. RECOMMENDATIONS AND PRECAUTIONS:

In order to increase the efficiency of training-education and administration, it is deemed highly necessary:

- a) To resolve immediately the infrastructural problems preventing training and education,
- b) To improve and support the existing library with periodical and non-periodical publications,
- c) To issue a faculty journal and to encourage scientific publication,
- d) To fulfil the need for both academic and administrative personnel of the fields that are mostly needed in the faculty,
- e) To encourage interdisciplinary studies,
- f) To establish an electronic security system to monitor the input and output of the current library.

INTERNAL CONTROL ASSURANCE

I, hereby, with this document, as the spending authority of the faculty, declare that all information given in this report is reliable, exact and correct.

I also report that all resources allocated from the administrative budget to our spending branch have been used in a functional, cost-effective and productive manner; that the internal control system within my jurisdiction provides the full assurance for the legacy and order of all administrative and financial decisions and actions related to these decisions; and that there is a continuous and efficient process control within our spending branch.

This assurance is based on the information I have and on evaluations I have made as the spending authority as well as on issues within my knowledge such as internal controls, internal auditor reports, and The Court of Account reports.

I also proclaim that I have no knowledge of any issues to administration's disadvantage which are not reported in this document.

Faculty of Science and Letters 2019, Iğdir

Prof. Dr. İbrahim DEMİRTAŞ
